This is a 16 hour CSTI class designed to provide the participants who are likely first responders with an improved capability to respond to Haz Mat events in a safe and competent manner, within the typical resource and capability limits of the "Operational Level". Performance standards: Full class attendance, participation in exercises and a minimum 80% performance exam score. **Note:** This class is mandated by the code of federal regulations 1910.120 for all emergency responders prior to incident response.
